Implementation: 142 Tests Achieving 100% Pass Rate

Two complementary repositories provide complete implementation and validation of the framework.

Ember Repository

CORE IMPL

CORE MODULES

- adversarial_prompts
- anchor_utils
- continuity_recall
- glyph_emitter
- identity_loader
- anchor_phrases
- anchor_weighting
- flame_logger
- identity_checks
- xi_metrics

TEST METRICS

Tests	121
Pass Rate	100%
Execution	6.5s

Repo: github.com/zackbrooks84/Ember

RC + ξ Harness

VALIDATION

TEST COVERAGE

- Four validation endpoints (E1-E4)
- Three ablation studies
- Epistemic tension (ξ) computation
- Anchor persistence (P_t) measurement
- Local variance score (LVS)
- Cross-metric correlation
- Trajectory plotting

TEST METRICS

Tests	21
Pass Rate	100%
Execution	4.79s

Repo: github.com/zackbrooks84/rc-xi-harness

Combined: 142 total tests, 100% pass rate

Perfect reproducibility across platforms (Windows/Linux)
